

1. K-LOVE (FM 91.1) is one of the three radio stations I listen. It is a valuable asset to me, to my family and to my community. PLEASE do not displace this radio station with LPFM!
2. If this radio station was displaced by LPFM, there would be no alternative for the type of Christian music and programming this station makes available to this community.
3. K-LOVE provides music and other services to this community that no other station provides. It is in the best interest to this community to continue to allow this radio station to broadcast and not to be displaced by LPFM. The people who value what this radio station believe there is nothing else that can replace what it offers to this community.
